Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED ACTION***Claim Rejections***

Applicants amendment of claim 1 and addition of new claims 42-43, in their response of 03/05/2010 in response of the final office action of 01/06/2010, have not been entered because the amendment of claim 1 raises a new issue (said adzyme comprises at least one amino acid substitution or post translation modification to inhibit auto-cleavage by said protease domain) which requires further search of the prior art. New claims 42 and 43 have not been entered because they depend on amended claim 1 and comprise a new issue ("--amino acid substitution or post translation modification ---") which requires further search of the prior art.

Therefore, claims 1, 4, 5, 19-27, 30-34 and 37-40 remain rejected for the reasons of record.

Allowable Subject Matter/Conclusion

None of the claims are allowable.
